\* This publication provides non-statutory guidance from the Department for Education. It has been produced to help schools in England that are currently delivering a school week below 32.5 hours to increase the length of their school week to the minimum expectation of 32.5 hours that was announced in the Schools White Paper in March 2022, and replaces the information note that was published at that time. Most schools already deliver a school week of 32.5 hours or more.
