

Year 1 Science Autumn 1 Unit - Seasonal Changes

Key Scientific Skills	Year 1 Seasonal Changes
Asking simple questions and recognise that they can be answered in different ways	
Observe closely, using simple equipment	
Perform simple tests	
Identify and classify	
Using their observations and ideas to suggest answers to questions	
Gather and record data to help in answering questions	

Lesson Sequence

-  1. Understand there are four seasons
-  2. Understand the changes that take place in autumn
-  3. Understand the changes that take place in winter
-  4. Understand the changes that take place in spring
-  5. Understand the changes that take place in summer
-  6. Investigate how you can measure rainfall

Clothing to wear during each season

Months which fall into each season

Seasons of the year

Rocket Words

season	one of 4 parts of the year; spring, summer, autumn and winter
spring	a season between March and May
summer	a season between June and August
autumn	a season between September and November
winter	a season between December and February
hibernate	to sleep through the winter
temperature	how warm or cool something is
weather	the conditions and temperature outside

Progression of Knowledge

Unit	YEAR 1
Seasonal changes	Observe changes across the 4 seasons. Observe and describe weather associated with the seasons and how day length varies.

Months of the year
