

Retrieval Unit Vocabulary

continent, globe, human feature, location, physical feature, precipitation, season, vegetation, weather

Year 2 Autumn Unit: Food and Farming

Enquiry Question: Where does our food come from?

Geographical Concepts: interdependence, movement, resources

An aerial view of the farm land surrounding London

Primary Focus - Geographical Skills and Fieldwork

In this unit, Year 2 will learn to

- use aerial photographs and plan perspectives to recognise landmarks and basic human and physical features.

Secondary Focus - Human and Physical Geography

In this unit, Year 2 will learn to identify

- seasonal weather patterns in the United Kingdom;
- the location of hot and cold areas of the world in relation to the Equator and the North and South Poles.

Wheat is an example of a crop grown in the UK

New Unit Vocabulary

Agriculture - the preparation of the soil, growing of crops and raising of livestock

Countryside - the land and scenery of a rural area

Crops - a plant that is grown on a large scale

Earth - our planet

Farm - a place where plants are grown for food and animals kept for food

Farmer - a person who manages a farm

Farmland - land used for farming

Field - an area of open land, especially one planted with crops or used to keep animals

Harvest - the process or period of gathering in crops

Transport - to take something from one place to another

Year 2 will use their prior knowledge of seasons to explain seasonal crop growth

Food is transported all over the world by boats and lorries. Dover, Kent, is a major UK port.
